

# DREADHOLLOW FOREST

## HOW TO PAINT: TREES

Tree trunk segments and under side branch portion of the leaf parts are the same paint scheme as the tree trunks on other dreadhollow pieces. The dreadhollow wood paint scheme:

1. Heavy Dry Brush of Basewood.  
Allow this to dry
2. Lightly dry brush stucco with a drop of base wood over all of the trunks and underside branches of the leaf pieces.
3. Heavy dry brush with same color at top and bottom ends of tree trunks.

Dreadhollow leaf portion:

1. Heavily dry brush Shallow water green over the leaf pieces of tree.  
Allow this to dry
2. Medium dry brush with Moss Green to bring out detail of the leaves
